

# INSTRUCTIONS FOR UVC BULB REPLACEMENT

## General Information

Item No. DX0101

- UVC bulb for the effective inactivation of harmful molds, viruses, bacteria and yeasts.
- The UVC bulb needs to be changed annually or once the appliance shows the warning message “UCC” on the display.

### IMPORTANT

*Be sure to adhere to these maintenance guidelines. If there isn't sufficient strength of the UVC light, then this means the appliance is not functioning correctly.*
